

Parent-Infant Relational Assessment Tool – PIRAT Global Scales Training

Timetable

Day 1

10:00-11:30

- Welcome and Introductions
- Observing Cory - Group Discussion (Participants are requested to watch Cory in advance of the course)
- Introduction to the Parent-Infant Relational Assessment Tool (PIRAT) Scales

11.30-11.45 – Break

11:45-13:00

- What are we looking for from a PIRAT point of view?

13:00-14:00 - Lunch

14:00-15:15

- Detailed introduction to reliability coding. A variety of clips will be shown to demonstrate some of the easiest to code in relation to risk.
- Small groups and individual coding.

15:15-15:30 - Break

15:30-16:30

- Continuation. Where are we at the end of Day 1?

Day 2

10:00-11:30

- Detailed introduction to reliability coding focusing on the screening of risk in the mother-infant relationship
- We will consider how to differentiate subscale codings for “concern” and “significant concern”
- Codings of the global scores for Parent-Infant and Infant-Parent Scales

11:30-11:45 - Break

11:45-13:00

- Continuation

13:00-14:00 - Lunch

14:00-15:15

- Time to process how we are getting on with coding. Issues arising.
- Coding of clips. Coding in groups and group discussion

15:15-15:30 - Break

15:30-16:30

- Coding continues – building confidence through practice.
- Where are we at the end of Day 2?

Day 3

10:00-11:30

- Coding individually and in small groups.

11:30-11:45 - Break

11:45-13:00

- Continuation with large group discussion

13:00-14:00 - Lunch

14:00-15:15

- Individual coding and large group discussion

15:15-15:30 - Break

15:30-16:30

- Taking it back into the workplace. Moving to reliability – what's involved?
- Course feedback

16:30 - END
